INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners of Cromwell Fire District Cromwell, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Cromwell Fire District (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Cromwell Fire District, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 - 16, the budgetary comparison information on page 61, and the pension schedules on pages 62 - 68 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Cromwell Fire District's basic financial statements. The Report of the Property Tax Collector, Schedule of Debt Limitation, and the combining nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Report of the Property Tax Collector, Schedule of Debt Limitation, and the combining nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, The Report of the Property Tax Collector, Schedule of Debt Limitation, and the combining nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 30, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Hoyt, Filippetti & Malashan, LLC

Groton, Connecticut January 30, 2019

This discussion and analysis of Cromwell Fire District's (the District) financial performance is prepared by management to provide an overview of the District's financial activities for the fiscal year ended June 30, 2018. Please read this MD&A in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

- The District's combined net position *decreased* by 0.22% from a year ago. Combined net position amounted to \$21,855,741 as of June 30, 2018. Over time, *increases* in net position are an indicator that the District's financial position is improving.
- Net position for the District's governmental activities *decreased* to \$6,748,267 from a balance of \$6,961,517 as of June 30, 2017. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements, *decreased* from \$1,326,736 at June 30, 2017 to \$1,139,883 at the end of this year.
- The District's total revenue was \$6,142,582 (net of transfers). The total cost of all programs and services was \$6,191,094 (net of transfers).
- The General Fund unassigned fund balance at June 30, 2018 is \$647,189.
- The tax collection rate for the current tax levy was 99.4%. Total tax and interest collections of \$2,795,769 were *over* the budgeted estimate by \$18,969.
- Ambulance billings amounted to \$644,140. Billable call volume *decreased* from 1,477 in fiscal 2017 to 1,406 in fiscal 2018.
- The District's share of fund balance of the Public Safety Communications Tower Fund is \$751,023 as of June 30, 2018. This balance is earmarked to finance communication systems, public safety tower structural replacements and upgrades, and other Fire Department capital programs but is also available to finance operating costs if needed.
- Water Division operating income amounted to \$163,665 and the change in net position after transfers, capital contributions, and non-operating revenue and interest expenses amounted to \$164,738. Water Division net position *increased* from \$14,942,736 as of June 30, 2017 to \$15,107,474 as of June 30, 2018.
- The District has an 'AA' long-term bond rating with a stable outlook from Standard and Poor's.

BASIC FINANCIAL STATEMENTS

Our discussion and analysis of the Cromwell Fire District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2018; as such, it should be read in conjunction with the District's audited financial statements. The District's financials consists of two series of financial statements: Government-Wide and Fund Financial Statements. The remaining statements provide financial information about activities for which the District acts solely as a trustee or agent.

1) Government-Wide Financial Statements - These statements, which include the Statement of Net Position and the Statement of Activities, provide information about the activity of the District as a whole. These statements also present a longer-term view of the District's finances by presenting all assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses on the *accrual basis of accounting*, which is similar to the accounting methods used by many private-sector companies.

For purposes of the government-wide financial statements, the Cromwell Fire District is divided into two kinds of activities:

- a) <u>Governmental Activities</u> The majority of the District's services are reported here, including fire protection and general administration. These activities are financed primarily through an annual levy of property taxes.
- b) <u>Business-Type Activities</u> This consists of one proprietary fund called the Water Division, which derives its funding primarily from water sales to customers.
- 2) <u>Fund Financial Statements</u> For governmental activities, these statements present how the services provided by the District were financed in the short term as well as what remains for future spending. Additionally, these statements report the District's activities in greater detail by highlighting the District's most significant funds. The District's funds are separated into three types:
 - a) Governmental Funds Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the *modified accrual basis of accounting*, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations; these statements help you to determine whether there are more or fewer financial resources that can be spent in the near future to finance District operations. We describe the relationship (or differences) between governmental *activities* (reported in the government-wide financial statements) and government *funds* in a reconciliation at the bottom of the fund financial statements.
 - b) <u>Proprietary Funds</u> When the District receives metered water revenues from its customers, it reports this activity in its proprietary fund. Proprietary funds are reported in the same way that all activities are reported in the government-wide financial statements.
 - c) Fiduciary Funds The District is the administrator of a single employer defined benefit pension plan that covers individuals who have provided volunteer services to the Cromwell Fire Department. The Volunteer's Pension Plan is considered to be part of the District's financial reporting entity and is included in the District's financial reports as a pension trust fund. The District is also responsible for other assets that are in the Volunteer Activity Fund. These assets can only be used for specific volunteer activities as specified in the Fire Department's By-Laws. All of the District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. These activities are excluded from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

CONDENSED GOVERNMENT-WIDE STATEMENTS

Presented below are condensed versions of the government-wide financial statements.

Statement of Net Position

	Governmen	tal Activities	Increase	Business-Ty	pe Activities	Increase
	2018	2017	(Decrease)	2018	2017	(Decrease)
Current and other assets	\$ 2,242,396	\$ 2,226,633	\$ 15,763	\$ 2,769,010	\$ 2,803,696	\$ (34,686)

Total assets	\$ 9,731,405	\$10,272,721	\$ (541,316)	\$ 19,496,260	\$ 20,031,735	\$ (535,475)
Current liabilities	\$ 235,593	\$ 229,586	\$ 6,007	\$ 397,645	\$ 466,765	\$ (69,120)
Non-current liabilities	1,663,886	1,921,145	(257,259)	3,882,759	4,490,858	(608,099)
Deferred inflows of resources	1,083,659	1,160,473	(76,814)	108,382	131,376	(22,994)
Total liabilities	2,983,138	3,311,204	(328,066)	4,388,786	5,088,999	(700,213)
Net position						
Invested in capital assets,						
net of related debt	5,573,761	5,597,576	(23,815)	12,455,314	12,182,923	272,391
Restricted	34,623	37,205	(2,582)	-	_	-
Unrestricted	1,139,883	1,326,736	(186,853)	2,652,160	2,759,813	(107,653)
Total net position	6,748,267	6,961,517	(213,250)	15,107,474	14,942,736	164,738
Total liabilities and net position	\$ 9,731,405	\$10,272,721	\$ (541,316)	\$ 19,496,260	\$ 20,031,735	\$ (535,475)

Current and other assets in the governmental activities *increased* during the fiscal year ended June 30, 2018 due to presence of a net pension asset at year end. The District's capital assets *decreased* from annual depreciation expense. Deferred outflows of resources *decreased* due to changes in pension assumptions and projected pension investment earnings. Non-current liabilities in the governmental activities *decreased* in the 2017-2018 fiscal year due to scheduled debt payments. Deferred inflows of resources *decreased* primarily due to amortization relating to the West Street complex.

Current and other assets in the business-type activities *decreased* during the fiscal year ended June 30, 2018 due to a *decrease* in cash and cash equivalents at year end. The Water Division's capital assets *decreased* from annual depreciation expense. Deferred outflows of resources *decreased* primarily due to amortization relating to the West Street complex. Non-current liabilities *decreased* as of June 30, 2018 primarily due to scheduled debt service payments.

CONDENSED GOVERNMENT-WIDE STATEMENTS (Continued)

Significant capital outlays (>\$1,000) are being recorded as District capital assets and are being depreciated over their estimated useful lives. Capital assets presented here are shown net of their accumulated depreciation. Net position has been separated into three categories on the District's financial statements: 1) Invested in capital assets, net of related debt, 2) Restricted and 3) Unrestricted net position. Because capital assets are not very liquid (i.e. easily converted to cash), the District's equity in these assets has been separated and labeled as such. Unrestricted net position, however, represents the liquid portion of the District's net position that can be used to finance daily operations without constraints.

CONDENSED GOVERNMENT-WIDE STATEMENTS (Continued)

Governmental Activities

The two primary sources of revenue used to finance governmental activities are property taxes and charges for services. Property taxes amounted to 71% of total revenue, which is an *increase* from the previous year. Charges for services amounted to 23% of total revenue, which is a *decrease* from the previous year. Total revenues *increased* by 0.5% from the previous year. This is primarily the result of an *increase* in revenue from property taxes. Charges for services include \$644,140 in ambulance billings and \$279,412 for fees related to the use of the Public Safety Communications Tower owned by the District.

The table below presents the cost of each of the District's programs. Public safety includes the operation of the Fire Department, EMS services, emergency communications and dispatch, signals and alarms and the office of the Fire Marshal. Administration and finance reflects the Fire Department's share of the total cost of administration for the District.

The net cost of services reflects the financial impact on the District's taxpayers by each of these functions:

	Total Cost of Services					Net Cost	of Ser	Services		
		2018		2017		2018		2017		
Administration and finance	\$ 554,566		\$	680,295	\$	554,566	\$	680,295		
Public safety	3,545,720			3,385,121		2,424,679	2,269,673			
Interest and miscellaneous income		27,317		36,532		27,317		36,532		
Totals	\$	4,127,603 \$ 4,101,948		\$	3,006,562	\$	2,986,500			

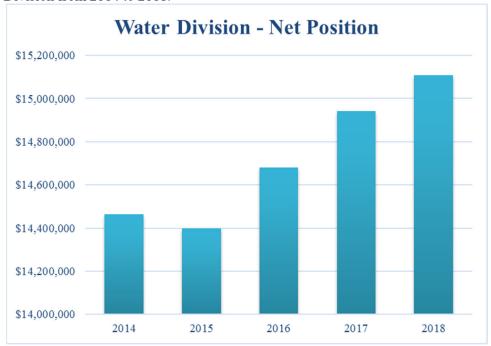

The total cost of services, as reflected in the above schedule, *increased* by \$25,655 or approximately 0.6%. This *increase* was the result of a \$125,729 *decrease* in administration costs, a \$160,599 *increase* in public safety costs, and a *decrease* of \$9,215 in interest expense.

The net cost of services *increased* by \$20,062, or approximately 1%, primarily as a result of the *increase* in public safety costs mentioned above.

CONDENSED GOVERNMENT-WIDE STATEMENTS (Continued)

Business-Type Activities

The District, through its Water Division, owns and operates the water distribution, pumping and treatment facilities that service the Town of Cromwell. The District's Water Division is reported as a business-type activity, and these services are financed by fees charged to customers. For the year ending June 30, 2018, metered sales amounted to \$1,954,097. This was an *increase* of 1.5% from the previous year. Water Division operating net income amounted to \$163,665 as compared to \$261,120 for 2016-2017. Net income after transfers, capital contributions, and non-operating revenue and interest expenses amounted to \$164,738, a *decrease* of \$96,546 from the previous year. Water Division net position *increased* from \$14,942,736 as of June 30, 2017 to \$15,107,474 as of June 30, 2018. The chart presented below reflects a five-year comparison of the net position of the Water Division from 2014 to 2018.

The District services 4,027 accounts, of which 3,655 are residential, 350 are commercial, and 22 are industrial.

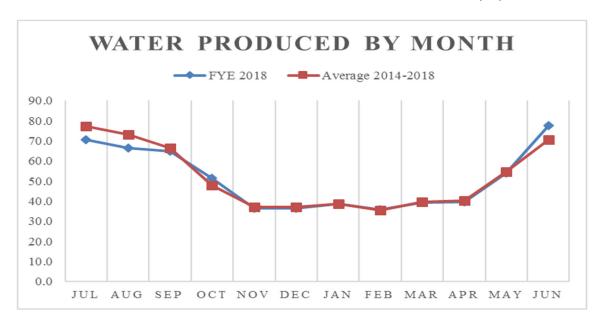

With the addition of recently completed Well #4, the District's groundwater system consists of four active production wells with a combined pumping rate of approximately 10.5 million gallons per day. The maximum day demand in fiscal 2018 was 3,771,000 gallons providing the District with a surplus of over six million gallons a day. This surplus in system capacity enables the District to rotate and rest wells, and provides the potential to supply additional water to surrounding communities. The District currently provides water to a portion of Berlin, Connecticut. In addition, with the newer wells now on line, the District has been able to improve overall water quality.

CONDENSED GOVERNMENT-WIDE STATEMENTS (Continued)

Business-Type Activities (Continued)

The system includes a treatment facility, a high service pump station and a three million gallon underground storage reservoir. The District's chemical feed and control facility includes some of the most advanced technology and monitoring systems that are available in the industry today. None of the District's water supply is derived from open reservoirs or above ground water sources. Presented below are a table and a graph showing a five-year monthly comparison of water produced and a five-year monthly average:

	Fiscal Year End					Five-Year	2018 Monthly	
Month	2014	2015	2016	2017	2018	Average	Average	%

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the Cromwell Fire District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The District currently maintains seven (7) governmental funds, two (2) of which the District considers major funds: the General Fund and the Capital Projects Fund, and five (5) which the District considers nonmajor funds: the Public Safety Communications Tower Fund, the Fire Department Fund, the Sick Benefits Fund, the Scholarship & Memorial Fund, and the Neto Student Benefits Fund.

As the District completed the year, its governmental funds reported a combined fund balance \$1,785,342 as compared with a balance of \$1,825,896 a year ago. A schedule of the various components of the governmental fund balances is presented below:

	2018	2017
General fund	\$ 668,848	\$ 667,146
Capital projects:		
Equipment reserve fund	170,400	177,843
Firehouse renovation fund	14,518	14,518
Training facility fund	(24,438)	(24,438)
West Street complex fund	31,269	31,269
Court Street addition	10,265	10,265
Non-major special revenue funds:		
Public safety communications tower fund	751,023	799,641
Fire department fund	64,625	49,963
Sick benefits fund	64,209	63,868
Scholarship & Memorial fund	28,861	29,910
Neto student benefits fund	5,762	5,911
Total governmental funds	\$ 1,785,342	\$ 1,825,896

The *increase* in the General Fund total fund balance reflects the results from 2017-2018 budgetary operations. The District's results from budgetary operations had a *positive* variance of \$1,702.

The *decrease* in the Equipment Reserve Fund resulted from the planned use of the reserve balance to finance capital additions. These expenditures were made in accordance with the District's five-year capital plan. Total expenditures amounted to \$180,492 of which \$77,850 was capitalized.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (Continued)

Governmental Funds (Continued)

In addition to the use of the reserve balance, the funding for these projects came from transfers from the General Fund (\$125,049) and the Public Safety Communications Tower Fund (\$48,000).

The Firehouse Renovation Fund will be used in conjunction with the District's long-range facilities preventive maintenance program. The balance in the West Street Complex Fund is being held in reserve to cover any additional costs associated with the completion of the facility. The *increase* before transfers in the Public Safety Communications Tower Fund reflects the positive results of operations for the current year.

The following funds represent trust funds for the Fire Department:

Fire Department Fund Sick Benefits Fund Scholarship & Memorial Fund Neto Student Benefits Fund

The operation of these trust funds is governed by the By-Laws of the Department and not the By-Laws of the District. All monies received by the Department by gift or donations are deposited into these funds. The funds may be used for general or specific expenses of the Department not covered by the District's annual budget or such other expenditures as defined in the Department's By-Laws.

General Fund Budgetary Highlights

During fiscal 2017-2018, the Board of Commissioners made an additional appropriation from unreserved fund balance in the amount of \$36,549. This additional appropriation was required in order to replace the Fire Chief's vehicle which was totaled in an accident. Line item transfers were also approved.

Overall actual revenues were *over* budget in total by \$29,101 and actual expenditures were *under* budget by \$94,746, with each individual budget line item varying differently in the amount of its variance with the budget.

The two primary sources that finance General Fund operations are property taxes and ambulance billings. Tax collections for the current year's levy amounted to \$2,772,490. The tax collection rate for the current levy was 99.36%.

Ambulance billings amounted to \$644,140 as compared with \$669,333 for 2016-2017. This represents a 3.8% *decrease* in revenue. The District's charges for ambulance services are controlled by the State of Connecticut Department of Public Health. The authorized State rate for basic services was \$726 as of June 30, 2018. The Medicare rate is \$395.53. Regardless of the actual number of requests for service (911 calls), only completed calls result in a billable event. Cancellations, refusals, stand-bys and such do not result in any revenue, yet the District must expend resources to have an ambulance staffed and able to respond.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (Continued)

General Fund Budgetary Highlights (Continued)

The following factors have contributed to the *decrease* in ambulance billings:

- Billable calls *decreased* from 1,477 in 2016-17 to 1,406 in 2017-18. The billable call volume for 2017-18 represented a 4.8% *decrease* from 2016-17.
- The average billable call amount *increased* primarily due to the *increase* in the authorized State rate for basic services.
- Self-pay payers *increased* to 3.6% of total call volume for fiscal year 2018 from 3% in fiscal year 2017.

General Fund expenditures include the District's public safety operations (Fire and EMS Services). Total General Fund expenditures for the year ended June 30, 2018 amounted to \$3,508,150. This was \$94,746 *less* than the adjusted budget.

General Fund revenues *exceeded* expenditures by \$1,702. The General Fund available fund balance as of June 30, 2018 is \$647,189 or 18.4% of 2017-2018 General Fund expenditures.

PUBLIC SAFETY COMMUNICATIONS TOWER FUND

The Cromwell Fire District owns a 170-foot communications tower, including appurtenances and equipment buildings. The Tower is utilized for District and town wide public safety communication purposes. The District also leases tower space to various cellular phone companies and other organizations requiring antennas for communications systems. Operations of the Tower are under control of a Public Safety Tower Committee made up of representatives from the District and the Town of Cromwell Police Department. Net revenues from the Tower are shared equally between the District and the Town. Revenues from Tower leases amounted to \$279,412 for the year ended June 30, 2018. The District's share of the fund balance of the Public Safety Communications Tower Fund is \$751,023 as of June 30, 2018. Within the fund the Public Safety Tower Committee established a reserve account for financing the future public safety tower structural replacements and upgrades. There were no contributions to the reserve account for 2017-18. During the fiscal year there were no charges to the reserve account and the balance is \$124,008 as of June 30, 2018. The remaining balance of \$627,015 is available to finance communication systems and other Fire Department capital programs.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2018, the District had over \$39.9 million invested in various capital assets as listed below:

	Governmental	Business-Type	
	Activities	Activities	Total
Land	\$ 305,000	\$ 147,152	\$ 452,152
Construction in process	-	2,006	2,006
Buildings and improvements	7,127,247	23,009,290	30,136,537
Vehicles	4,208,387	278,669	4,487,056
Equipment	3,062,183	1,765,733	4,827,916
Total	\$ 14,702,817	\$ 25,202,850	\$ 39,905,667

During the fiscal year ended June 30, 2018, the District added \$83,163 of depreciable capital assets to its governmental activities. These additions included the following:

- Dispatch software upgrades (\$33,779)
- Chief's vehicle 2017 Ford Explorer (\$36,549 total cost)

For its business-type activities, the District added capital assets of \$65,315 and \$1,303,251 from construction in progress, which consisted of the following:

- Well #3 motor replacement (\$21,466)
- 2017 Ford F-250 (\$28,108)
- Costs associated with the replacement of water mains (\$1,303,251)

Additional information on the District's capital assets can be found in *Notes 5* and 6 to the financial statements.

Noncurrent Liabilities

For its governmental activities, the District made principal payments totaling \$227,857 on its bonds payable long-term debt and amortized \$14,406 on the premium on bonds payable. Total indebtedness in the form of bonds and premiums at June 30, 2018 was \$1,090,484. Other obligations at June 30, 2018 include \$364,330 of pension liability, \$6,989 of accrued interest, and \$85,841 of accrued compensated absences.

CAPITAL ASSET AND DEBT ADMINISTRATION (Continued)

Noncurrent Liabilities (Continued)

For its business-type activities, the District made principal payments totaling \$587,833 on its bonds payable long-term debt and amortized \$39,023 on the premium on bonds payable. Total indebtedness in the form of bonds and premiums at June 30, 2018 was \$3,608,684. Other obligations at June 30, 2018 include \$219,159 of net pension liability and \$54,916 of accrued compensated absences.

Additional information on the District's long term debt can be found in *Notes 7* and 8 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The unemployment rate in the Town of Cromwell now stands at 4.0% as of June 2018, versus 4.4% as of June 2017. This compares favorably with the Hartford Labor Market area's unemployment rate of 4.5% and the State rate of 4.5%.

According to the U.S. Census Bureau's American Community Survey 5-Year Estimates, 2013-2017, per capita income in Cromwell was \$45,954 compared to the county rate of \$43,695 and the State rate of \$41,365. Median household income was \$85,856 for Cromwell versus \$81,673 for the county and \$73,781 for the State. The percent of families below poverty level was 3.1% for the Town. The county percentage was 4.5% and the State's was 7.0%.

General Fund

At its annual budget meeting on May 22, 2018, the Cromwell Fire District adopted its budget for 2018-2019. The General Fund budget for 2018-2019 reflects revenues of \$4,300,707, operating expenditures of \$3,492,286, capital transfers of \$228,849 and debt service expenditures of \$579,572. The 2018-2019 budget is a balanced budget with no projected use of available General Fund fund balance to balance revenues with expenditures. The District's mill rate was increased from 2.25 to 2.5 mills for the 2018-2019 fiscal year.

General Fund revenues are projected to increase by 16.5% primarily as a result of an increase in property tax revenue (\$814,000).

General Fund expenditures reflect an increase of 16.5% over the current budget. An increase in debt service payments (\$309,991) and an increase in the contribution to the Equipment Reserve Fund (\$140,349) are the primary factors.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES (Continued)

Water Division Enterprise Fund

The total projected revenue for the Water Division is \$2,219,201. This represents an increase of 3% from the current year. The District is not considering any increase in water rates at this time.

The operating budget for the Water Division, which amounts to \$1,635,713, is an increase of 3.7% compared to 2017-2018. Projected operating revenues exceed operating expenditures by \$580,988. Net results of operations reflect no change after taking into consideration the contribution from assessments (\$2,500) and the payment of debt principal (\$583,488).

Capital Budget

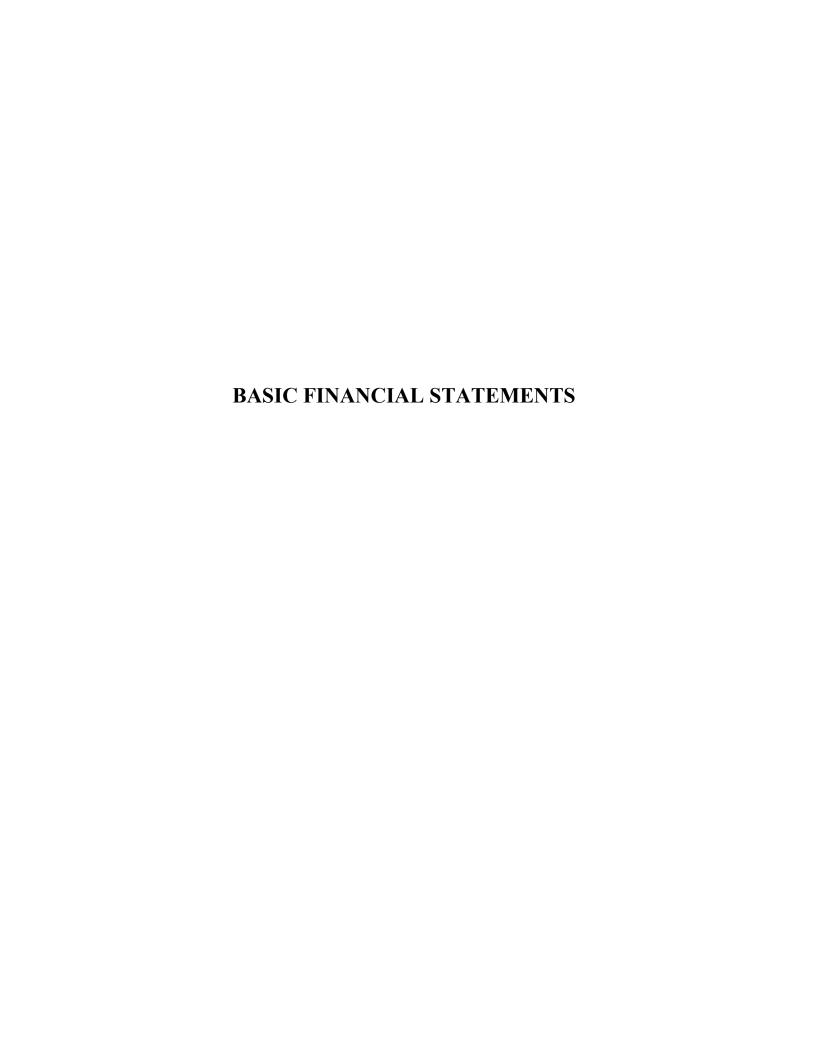

The budget for the Equipment Reserve Fund includes:

- 1. \$20,000 for Hurst tool replacement
- 2. \$27,000 appropriated for SCBA equipment
- 3. \$20,000 for truck bay heater upgrades at the West St. station
- 4. \$417,000 for pagers, login recorders & the construction of 6 new radio voting sites

Funding for the Equipment Reserve Fund includes a General Fund contribution of \$228,849 and \$301,097 from the District's share of available fund balance in the Public Safety Communications Tower Fund. The projected balance for the Equipment Reserve Fund at the end of the 2018-2019 fiscal year is \$182,000.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to show accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Executive Director of the Cromwell Fire District, One West Street, Cromwell, Connecticut 06416.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Cromwell Fire District (the District) operates under the direction of an Executive Director and is governed by a Board of Commissioners. The District provides fire protection and ambulance services to the Town of Cromwell, Connecticut (the Town). In addition, the District, through its Water Division, provides water distribution, pumping, and treatment services to the Town.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the District are discussed below.

REPORTING ENTITY

The reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature of significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be incomplete or misleading as set forth by GASB. In evaluating how to define the reporting entity for financial statement reporting purposes, management has considered all potential component units. The decision to include a potential component unit in this reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. The criterion has been considered and there are no agencies or entities which should be presented with this government.

BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District's fire protection and ambulance services are classified as governmental activities. The District's Water Division is classified as a business-type activity. The District's fiduciary funds are excluded from these statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

In the government-wide statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts – invested in capital assets net of related debt, restricted, and unrestricted net position.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS *(Continued)*

The government-wide statement of activities reports both the gross and net cost of each of the District's functions and business-type activities (fire protection and ambulance services, collectively referred to as "Public Safety," and the Water Division). The functions are also supported by general government revenues (property taxes and other revenues). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating grants, and capital grants and contributions. Program revenues must be directly associated with the function or a business-type activity. The net costs (by function or business-type activity) are normally covered by general revenue (property taxes and other revenues). The District does not allocate indirect costs.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the District:

1) Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

- a) <u>General Fund.</u> This fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is considered a major fund.
- b) <u>Special Revenue Funds.</u> These funds are used to account for the proceeds of specific revenue sources that are restricted or committed for specific purposes, excluding capital projects and debt service. The District currently maintains five special revenue funds, none of which is considered a major fund.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIC FINANCIAL STATEMENTS – FUND FINANCIAL STATEMENTS (Continued)

1) Governmental Funds (Continued):

c) <u>Capital Projects Fund.</u> This fund is used to account for the acquisition or construction of capital assets. This fund is considered a major fund for the year ended June 30, 2018.

2) Proprietary Funds:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Proprietary funds distinguish operating revenues and expenses from non-operating revenues. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The following is a description of the proprietary fund of the District:

a) Enterprise Fund. This fund is required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges, or (c) established fees and charges based on a pricing policy designed to recover similar costs. The District currently maintains one enterprise fund, the Water Division Enterprise Fund. This fund is considered a major proprietary fund and is used to finance the water distribution, pumping and treatment services provided to the Town.

3) Fiduciary Funds:

These funds are used to report assets held in a trustee or agency capacity and therefore are not available to support the District's programs. The following is a description of the fiduciary funds of the District:

- a) Pension Trust Fund. This fund is used to account for the resources held in trust of the District's volunteer defined benefit pension plan.
- b) <u>Volunteer Activity Fund.</u> This agency fund is used to account for the funds held on behalf of the District's volunteers.

When restricted, committed, assigned and unassigned resources are available for use, it is the District's policy to use restricted resources first, then committed, assigned and unassigned as they are needed.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

- 1) Accrual: Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.
- 2) Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

The District uses the consumption method with regard to its expenditures for insurance premiums and other prepayments.

CASH EQUIVALENTS

The District defines cash equivalents as liquid investments with an original maturity of three months or less. The District had cash equivalents totaling \$9,330 between all funds at June 30, 2018, which consisted of monies held in the State of Connecticut's Short Term Investment Fund.

CAPITAL ASSETS

Capital assets purchased or acquired with an original cost of \$1,000 or more and an estimated useful life in excess of one year are reported at historical cost or estimated historical cost. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the asset's useful life. Useful lives for the assets of the District range from a minimum of seven (7) years for vehicles and equipment to a maximum of sixty-seven (67) years for transmission and distribution assets.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

Based upon experience, management has established an allowance for doubtful accounts for certain delinquent property taxes and ambulance billing fees in its General Fund and governmental activities. In addition, an allowance for doubtful accounts has been established in the Water Division Enterprise Fund for delinquent water usage fees.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ALLOWANCE FOR DOUBTFUL ACCOUNTS (Continued)

No allowance has been established for this fund's assessments receivable as these are secured by real estate.

INVESTMENTS

The District reports the investments held in its Pension Trust Fund using the fair value measurement guidelines established by accounting principles generally accepted in the United States of America. These guidelines recognize a three-tiered fair value hierarchy as outlined below:

Level 1: Quoted prices for identical investments in active markets

Level 2: Observable inputs other than quoted prices

Level 3: Unobservable inputs

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents the consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports a deferred charge on refunding and deferred outflows related to pensions in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pensions results from differences between expected and actual experience, and changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees (active and inactive) that are provided with benefits through the pension plans. In addition, the District reports a deferred outflow related to its West Street Complex (See *Note 15*).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports a deferred inflow on the government-wide financial position related to its West Street Complex (See *Note 15*) and reports deferred inflows related to pensions. As with deferred outflows related to pensions, deferred inflows of resources related to pensions result from differences between expected and actual experience and changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner equal to the average of the expected remaining services lives all employees (active and inactive) that are provided with benefits through the pension plan.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES (Continued)

With regard to governmental funds, the District reports deferred inflows of resources related to unavailable property tax and ambulance fee revenues. These unavailable revenues consist of property tax and ambulance fee receivables that are not collected within 60 days of year end and therefore are not considered "available".

INVENTORY

Inventory consists of spare parts and supplies in the Water Division Enterprise Fund and is stated at historical cost.

COMPENSATED ABSENCES

The liability for compensated absences reported in the government-wide and proprietary fund financial statements consists of unpaid, but earned vacation and sick pay balances. Expenditures and liabilities related to these obligations are recognized in the governmental fund financial statements when they mature such as upon the termination of employment. Compensated absences are reported as noncurrent liabilities in the government-wide statement of net position and the statement of net position of the District's proprietary fund.

Employees can carryforward all earned vacation time, which must be used by the end of the subsequent year. Non-exempt employees can only carry over one week of vacation time to the next calendar year. Employee's accrued sick time is vested after ten years of services. Upon retirement or death, an employee is entitled to 25% of his or her accrued sick time up to a maximum of 120 days. Annually in July, employees shall be paid in cash 30% of the accrued sick time that is in excess of the 120-day limit. Members of the Cromwell Professional Emergency Dispatchers Union are not eligible for the annual excess sick time payout. The balance of accrued compensated absences as of June 30, 2018 in the District's governmental and business-type activities was \$85,841 and \$54,916, respectively.

NET PENSION LIABILITY

The net pension liability is measured as the portion of the actuarial value of projected benefits that is attributed to past periods of employee service in the District's defined benefit pension plans, net of the corresponding pension plan's fiduciary net position. Each pension plan's fiduciary net position is determined using the same valuation methods that are used by the related pension plan for purposes of preparing its statement of fiduciary net position.

LONG-TERM DEBT OBLIGATIONS

Long-term debt and other related obligations of the District are reported as noncurrent liabilities in the government-wide and proprietary fund financial statements. The District's bonds payable are reported net of the associated bond premiums. These premiums are amortized over the life of the bonds on the straight line method.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND EQUITY AND NET POSITION

In the government-wide financial statements, net position is classified in the following categories:

Invested in Capital Assets, Net of Related Debt – This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce this category.

Restricted Net Position – This category represents constraints placed on net position use which are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position – This category represents the net position of the District, which is not restricted for any project or other purpose.

In the fund financial statements, fund balances of governmental funds are classified in five separate categories as follows:

Nonspendable Fund Balance – Amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – Amounts restricted by enabling legislation. Also reported if (a) externally imposed by creditors, grantors, contributors, or laws regulated by other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority, the Board of Commissioners. A vote by the Board of Commissioners members is required to establish and modify or rescind a fund balance commitment.

Assigned Fund Balance – Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned Fund Balance – Residual classification of the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BUDGETING

A) Budget Basis

The District is required by state law to adopt annual budgets for the General Fund. The budget is adopted on a modified accrual basis consistent with generally accepted accounting principles with the exception of the use of encumbrances. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order, contract, or other commitment is issued. Any encumbrances outstanding at year-end are reflected as expenditures in the current year budgetary reports.

B) Budget Procedures

The Board of Commissioners prepares and submits a proposed budget and mill rate for approval at the annual district budget meeting.

C) Budget Control

The Board of Commissioners may amend the annual budget subject to the requirements of the Connecticut General Statutes. These statutes allow the governing body to make a one time additional appropriation up to \$20,000 to any one appropriation line. A District meeting (consisting of residents) must be called to make appropriations over \$20,000 or additional changes to a previously adjusted appropriation. The Board of Commissioners is authorized to approve transfers between budgeted line items and between funds. Unexpended appropriations lapse at the end of the fiscal year, unless specifically continued in force to the subsequent period by approval of the Board of Commissioners.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

SUBSEQUENT EVENTS

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through January 30, 2019, the date that the financial statements were available to be issued. There were no subsequent events identified that require disclosure.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

APPLICATION OF ACCOUNTING STANDARDS

The District did not implement any new accounting standards during the year ended June 30, 2018.

NOTE 2 - CASH, CASH EQUIVALENTS, AND INVESTMENTS

<u>Deposits</u> - The District does not have a policy for deposits. The District also does not have a custodial credit risk policy. However, as a practice, the District follows Connecticut State Statutes. The State of Connecticut requires that each depositor maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio.

<u>Cash Equivalents / Investments</u> - The District does not have a custodial credit risk policy with regard to cash equivalents, investments, or related credit risk for debt securities, however, it is the District's practice to follow Connecticut State Statues (CGS). CGS Section 7-400 permit municipalities and local governments to invest in: (1) obligations of the United States and its agencies (2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and (3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. CGS Sections 3-27a to 3-27f permit the investment in the shares of the Connecticut Short Term Investment Fund (STIF).

The STIF is a money market investment pool managed by a division of the State of Connecticut's Treasurer's Office. Investments must be made in instruments authorized by the State's CGS using guidelines adopted by the State Treasurer. The fair value of the position in the pool is the same as the value of the pool shares and investments held by the fund and are stated at amortized cost. STIF is rated by Standard & Poor's at AAAm, its highest rating for money funds and investment pools.

<u>Interest Rate Risk</u> - Interest rate risk is the risk that the government will incur losses in fair value caused by changing interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate increases. With the exception of its Pension Trust Fund, the District generally does not invest in any long-term investment obligations.

At June 30, 2018, the District's cash and cash equivalents, exclusive of its fiduciary funds were as follows:

	(Carrying		
		Amount		
Deposit accounts	\$	3,224,583		
Connecticut Short Term Investment Fund		9,330		
Total cash and cash equivalents	\$	3,233,913		

NOTE 2 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Concentration of Credit Risk – Custodial credit risk is the risk attributed to the magnitude of a government's investments in a single issuer. The District does not have a concentration of credit risk policy. At June 30, 2018, the carrying amount of the District's deposits with financial institutions (including fiduciary funds) was \$3,257,499 and the bank balance was \$3,323,055 of which \$500,000 was covered by federal depository insurance, \$282,305 was collateralized by debt securities held by the financial institution, and \$2,540,750 was uninsured and uncollateralized at June 30, 2018.

At June 30, 2018, the District had the following investments within the Pension Trust Fund:

	S&P				Fair	Value Measurements				
	Credit		Fair		Level	Le	evel	Level		
Investment Type	Rating	Value			1		2		3	
U.S.Government	AAA to N/A	\$	303,912	\$	303,912	\$	-	\$	-

Money market funds		44,338				_					
	\$	1,185,283	\$	_	\$	301,843	\$	95,792			

NOTE 3 - PROPERTY TAXES

The District's property tax is levied and due on July 1 on the assessed value listed as of the prior October 1. Property taxes that have been levied and are due on or before year end are recognized as revenue on the fund financial statements if they are collected within sixty days after year end. Property taxes receivable not collected within sixty days after year end are reflected as revenue - unavailable under deferred inflows of resources. An allowance has been established for uncollectible taxes based on historical collection experience.

NOTE 4 - RECEIVABLES

At June 30, 2018, receivables consisted of the following:

	Fund Fir	nancials		Government-Wide Financials				
	 General	Wa	ter Division	Gov	vernmental	В	Susiness-type	
	Fund	Enterprise Fund		Activities			Activities	
Property taxes	\$ 40,556	\$	-	\$	40,556	\$	-	
Interest and liens	17,833		173,023		17,833		173,023	
Intergovernmental	6,218		-		6,218		-	
Service fees	243,073		862,067		243,073		862,067	
Other	16,639		-		16,639		-	
Special assessments	-		439,959				439,959	
Receivables, gross	324,319		1,475,049		324,319		1,475,049	
Allowance for doubtful accounts	(67,370)		(103,549)		(67,370)		(103,549)	
Receivables, net	\$ 256,949	\$	1,371,500	\$	256,949	\$	1,371,500	

Governmental funds report deferred inflows of resources in connection with receivables that are not considered to be available to liquidate liabilities of the current period. Resources received that have not yet been earned and therefore do not qualify for revenue recognition are reported in both the government-wide and fund financial statements as unearned revenue.

At June 30, 2018, the District's unearned revenues and deferred inflows of resources consisted of the following:

Current liabilities
Unearned revenue
Deferred inflows of resources
Revenue - unavailable

	Fund	Financials		Government-Wide Financials						
General Fund	Nonmajor Govern- mental Funds			Water Division Enterprise Fund		rnmental ctivities	Business-type Activities

NOTE 7 - NONCURRENT LIABILITIES – GOVERNMENTAL ACTIVITIES (Continued)

Description	West Str	reet Complex	Series 2012A			Total
Interest Maturities						
June 30,						
2019	\$	19,250	\$	13,701	\$	32,951
2020		13,750		11,049		24,799
2021		8,250		8,397		16,647
2022		2,750		5,304		8,054
2023		-		1,768		1,768
Total	\$	44,000	\$	40,219	\$	84,219
Due within one year	\$	19,250	\$	13,701	\$	32,951
Due in more than one year		24,750		26,518	_	51,268
	\$	44,000	\$	40,219	\$	84,219

The above amounts represent general obligations of the District and are expected to be paid from future taxation.

Presented below is the statutory debt limitation for the Town of Cromwell including the District:

				De	ebt Limitation
	Total			i	n Excess of
	Debt		Statutory	Ou	tstanding and
	 Limitation	In	debtedness	Au	thorized Debt
General Purpose	\$ 103,917,989	\$	17,641,852	\$	86,276,137
Schools	207,835,979		8,853,434		198,982,545
Sewers	173,196,649		-		173,196,649
Urban Renewal	150,103,762		-		150,103,762
Pension deficit	138,557,319		-		138,557,319

In accordance with Connecticut General Statutes (CGS), municipalities and their coterminous entities may not incur indebtedness from the issuance of bonds that will cause aggregate indebtedness to be exceeded by class as outlined above, and in no case shall total indebtedness exceed seven times the base, which equals \$323,300,411 at June 30, 2018. The above schedule does not include \$3,481,322 of debt issued for the supply of water as such amounts are excluded from the debt limit calculation by the CGS.

NOTE 7 - NONCURRENT LIABILITIES - GOVERNMENTAL ACTIVITIES (Continued)

The Town of Cromwell is a member of the Mattabassett District (Mattabassett), a regional sewer district whose other constituent members are the City of New Britain, Town of Berlin, and the City of Middletown. Mattabassett, which is a separate reporting entity from the constituent members, has issued debt in connection with Connecticut's Clean Water Program. This debt is proportionately secured by a pledge of payments by its members as determined by the Mattabasset District Board.

NOTE 8 - NONCURRENT LIABILITIES - BUSINESS-TYPE ACTIVITIES

Noncurrent liabilities of the business-type activities for the year ended June 30, 2018 consist of the following:

	Beginning Balance		In	creases	Decreases			Ending Balance	Due Within One Year	
Bonds and notes payable Premium on bonds payable	\$	4,069,155 166,385	\$	-	\$	587,833 39,023	\$	3,481,322 127,362	\$	583,488
		4,235,540		-		626,856		3,608,684		583,488

Insurance and benefits		-		-	64,209		-
Public safety		-		34,623	64,625		-
Total fund balances	\$	21,659	\$	34,623	\$ 1,081,871	\$	647,189

NOTE 10 - INTERFUND BALANCES AND TRANSFERS

Interfund balances between governmental and proprietary funds arise when receipts or disbursements are processed through one fund's cash accounts on behalf of another fund or from temporary advances of receipts. All balances are expected to be repaid within one year.

As of June 30, 2018, the District had no interfund balances.

Interfund receivables and payables between governmental funds or between proprietary funds are eliminated upon consolidation in the government-wide financial statements.

Transfers represent nonreciprocal transactions between funds. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

NOTE 10 - INTERFUND BALANCES AND TRANSFERS (Continued)

The District made the following transfers during the year ended June 30, 2018:

	Tra	insfers In	Tra	sfers Out	
Fund Financial Statements					
Major funds:					
General Fund	\$	114,000	\$	125,049	
Capital Projects Fund		173,049		-	
Proprietary fund - Water Division Enterprise Fund		6,000		-	
Nonmajor funds:					
Public Safety Tower		_		168,000	
Total transfers - Fund Financial Statements	\$	293,049	\$	293,049	
Government-wide Financial Statements					
Governmental Activities	\$	-	\$	6,000	
Business-type Activities		6,000		-	
Total transfers - Government-wide Financial Statements	\$	6,000	\$	6,000	

Interfund transfers were made for the purpose of reimbursing expenditures incurred by other funds.

NOTE 11 - PENSION PLANS

The District participates in three defined benefit pension plans:

- 1) Volunteer Pension Plan
- 2) Town of Cromwell Employee Retirement System
- 3) State of Connecticut Municipal Employees' Retirement System

VOLUNTEER PENSION PLAN

The District is the administrator of a single employer defined benefit pension plan (PERS), which covers individuals who have provided volunteer services to the District. The PERS is considered to be part of the District's reporting entity and is included in the District's financial statements as a Pension Trust Fund.

Management of the plan rests with the five-member pension advisory board. Four members are elected commissioners, and one is an appointed staff member.

NOTE 11 - PENSION PLANS (Continued)

VOLUNTEER PENSION PLAN (Continued)

At June 30, 2018, pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	19
Inactive plan members entitled to but not yet receiving benefits	6
Active plan members	98
	123

Under the provisions of the plan, normal retirement age is age 62 and completion of 5 years of credited service. For an individual to participate in the plan, they must meet the requirements for a volunteer. All participants become fully vested upon 10 years of credited service or upon reaching age 62 with 5 years of credited service. Upon retirement, eligible participants receive \$15.00 per month for each year of credited service (up to a maximum of 25 years) plus additional amounts ranging from \$2.00 to \$5.00 per month for each year, up to a maximum total of 5 years credit, if the participant retired as an officer.

The plan's financial statements are prepared on the accrual basis of accounting. District contributions are recognized as revenues when due, and the District has made or has committed to provide the contributions. Benefit payments and refunds are payable when due and are paid in accordance with the terms of the plan.

The District establishes contribution rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2018, the actuarially determined contribution was \$57,367 and the actual contribution was \$57,367.

The plan's policy in regard to the allocation of invested assets is established and may be amended by the Cromwell Fire District. It is the policy of the Cromwell Fire District's board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

NOTE 11 - PENSION PLANS (Continued)

VOLUNTEER PENSION PLAN (Continued)

The following was the target asset allocation as of June 30, 2018:

	Target
Asset Class	Allocation
Domestic equity	52%
International equity	12%
Fixed income	32%
Short term investments	2%
Cash	2%
	100%

For the year ended June 30, 2018, the annual money-weighted rate of return on plan investments, net of plan investment expenses was 8.08%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The components of the net pension liability (asset) of the District at June 30, 2018 were as follows:

Total pension liability	\$ 1,514,961
Plan fiduciary net position	(1,582,918)
Net pension liability (asset)	\$ (67,957)

Plan fiduciary net position as a percentage of the total pension liability 104.49%

The total pension liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.0%

Salary increases 2.0%, average, including inflation

Investment rate of return 6.50%, net of pension plan investment expense,

including inflation

Mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, with adjustments for future mortality improvements using Mortality Improvement Scale MP-2014.

NOTE 11 - PENSION PLANS (Continued)

VOLUNTEER PENSION PLAN (Continued)

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's targeted asset allocation as of June 30, 2018 (see the earlier discussion of the plan's investment policy) are summarized as follows:

	Long-Term
	Expected Rate
Asset Class	of Return
Domestic equity	7.42%
International equity	7.71%
Fixed income	4.46%
Short term investments	3.05%
Cash	0.00%

The discount rate used to measure the total pension liability is 6.50%. For the fiscal year ended June 30, 2018, the projection of cash flows used to determine the discount rate resulted that the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. Since no changes have been made to the funding policy, benefit terms, or actuarial cost method, and contributions are historically in excess of the actuarially determine amount, it was considered by the actuaries to be reasonable to conclude that the plan's fiduciary net position is sufficient to pay all projected benefits for the fiscal year ended June 30, 2018. The long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability for 2018.

NOTE 11 - PENSION PLANS (Continued)

VOLUNTEER PENSION PLAN (Continued)

The following is a schedule of the changes in the net pension liability for the year ended June 30, 2018:

	To	tal Pension	Pla	n Fiduciary	Net Pension		
	Liability		N	et Position	Liability (A		
Balances, June 30, 2017	\$	1,489,901	\$	1,462,402	\$	27,499	
2017-2018 changes:							
Service cost		41,373		-		41,373	
Interest on total pension liability		97,674		-		97,674	
Differences between expected and actual experience		(56,806)		-		(56,806)	
Employer contributions		-		57,367		(57,367)	
Net investment income		-		132,684		(132,684)	
Benefit payments, including employee contribution refunds		(57,181)		(57,181)		-	
Adminstrative expenses				(12,354)		12,354	
Net Changes		25,060		120,516		(95,456)	
Balances, June 30, 2018	\$	1,514,961	\$	1,582,918	\$	(67,957)	

The following schedule presents the net pension liability, calculated using the discount rate of 6.50%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.50%) or 1 percentage point higher (7.50%) than the current rate:

	Current				
	 Decrease 5.50%)		count Rate 6.50%)		% Increase (7.50%)
Net Pension Liability (Asset)	\$ 128,006	\$	(67,957)	\$	(231,958)

For the year ended June 30, 2018, the District recognized pension expense of \$9,024. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to this pension from the following sources:

	D	eferred	Ι	Deferred	
	Outflows of		In	Inflows of	
	Resources		Resources		
Differences between expected and actual experience	\$	-	\$	282,488	
Changes of assumptions		52,859		-	
Net difference between projected and actual earnings on					
pension plan investments		29,175		46,843	
Total	\$	82,034	\$	329,331	

NOTE 11 - PENSION PLANS (Continued)

VOLUNTEER PENSION PLAN (Continued)

Amounts reported as deferred outflows or resources and deferred inflows of resources related to this pension will be recognized in pension expense as follows:

June 30,	
2019	\$ (26,271)
2020	(28,678)
2021	(42,061)
2022	(36,094)
2023	(26,999)
Thereafter	 (87,194)
Total	\$ (247,297)

TOWN OF CROMWELL EMPLOYEE RETIREMENT SYSTEM

The District (including its Water Division Enterprise Fund) participates in the Town's Employee Retirement System. The plan is administered by the Town of Cromwell and was established to provide pension benefits for its employees and the employees of the District.

The plan provides retirement, disability and death benefits and annual cost-of-living adjustments to plan members and their beneficiaries. Employees are eligible to retire at age 65 or 5 years of continuous service, whichever is later. Early retirement is available at age 55 plus 15 years of service. Normal retirement benefit formulas apply, subject to actuarial reduction.

Covered employees are required to contribute 2.5% of earnings to the plan. Each participating organization is required to contribute at an actuarially determined amount. The District's required rate of contribution as a percentage of covered payroll was 7.50%. The contribution requirements for the plan are established and may be amended by the Town of Cromwell.

At June 30, 2018, the District reported the following pension liabilities in its governmental and business-type activities for its proportionate share of the net pension liability:

	Governmental		Business-Type	
	Activities		Activities	
Total pension liability - proportionate share	\$	1,177,126	\$	1,653,406
Plan fiduciary net position - proportionate share		(1,171,039)		(1,434,247)
Net pension liability - proportionate share	\$	6,087	\$	219,159
Plan fiduciary net position as a percentage				
of the total pension liability		99.48%		86.74%

NOTE 11 - PENSION PLANS (Continued)

TOWN OF CROMWELL EMPLOYEE RETIREMENT SYSTEM (Continued)

The net pension liability was measured at June 30, 2018, and the total pension liability was determined by an actuarial valuation date of July 1, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participants, actuarially determined. At June 30, 2018, the District's proportion for its Governmental Activities and Business-Type Activities was 0.20% and 7.36%, respectively.

For the year ended June 30, 2018, the District recognized pension expense for this plan in the amount of \$36,306 and \$60,945 in its governmental and business-type activities, respectively. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources in its governmental and business-type activities as follows:

	Governmental Activities				Business-Ty	pe Acti	vities	
	Deferred		Γ	eferred	Deferred		D	eferred
	Outflows of		Inflows of		Outflows of		In	flows of
	Re	esources	Resources		Resources		Resources	
Differences between expected and actual experience	\$	-	\$	187,658	\$	-	\$	108,382
Changes of assumptions		27,121		-		35,795		-
Net difference between projected and actual earnings on								
pension plan investments		38,800		-		56,832		
Total	\$	65,921	\$	187,658	\$	92,627	\$	108,382

Amounts reported as deferred outflows or resources and deferred inflows of resources related to this pension will be recognized in pension expense as follows:

	Gove	rnmental	Bus	iness-Type
June 30,	Activities		Activities	
2019	\$	(11,561)	\$	17,373
2020		(20,523)		2,756
2021		(33,808)		(16,977)
2022		(30,233)		(12,139)
2023		(21,313)		(6,432)
Thereafter		(4,299)		(336)
Total	\$	(121,737)	\$	(15,755)

NOTE 11 - PENSION PLANS (Continued)

TOWN OF CROMWELL EMPLOYEE RETIREMENT SYSTEM (Continued)

The following actuarial assumptions were used in determining the total pension liability:

Actuarial method	Entry Age Normal
Amortization method	Level Dollar Amount
Remaining amortization period	20 years - open
Asset value method	Expected actuarial value plus/minus 20%
	of the difference between market value
Inflation	2.75%
Investment rate of return	7.00%, net of pension plan investment expense,
	including inflation
Salary increases	2.75% -6.50% dependent on age
Actuarial funding method	Projected United Credit Cost Method

Mortality rates were based on the RP-2014 Mortality Table with separate male and female rates, with no collar adjustments, combined table for non-annuitants and annuitants, projected to the valuation date with Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building block method on which best-estimated ranges of expected future real rates of return are developed. Best estimates of the real rates of return for each major class are included in the plan's target asset allocation below:

		Long-Term
	Target	Expected Rate
Asset Class	Allocation	of Return
US large cap core	30%	6.40%
US mid cap core	11%	7.30%
US small cap core	6%	7.80%
International equity	13%	6.40%
Real estate investment trusts	5%	6.20%
Taxable fixed income	35%	0.70%
	100%	

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at the actuarially determined contribution rates in future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan assets was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 11 - PENSION PLANS (Continued)

TOWN OF CROMWELL EMPLOYEE RETIREMENT SYSTEM (Continued)

The following schedule presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	Governmental Activities						
			(Current			
	1 %	Decrease	Disc	count Rate	1 %	6 Increase	
	(6.00%)		(7.00%)		(8.00%)	
District's proportionate share of net pension liability	\$	171,699	\$	6,087	\$	(133,085)	
		Ві	usiness-	-Type Activiti	es		
	,		(Current			
	1 %	Decrease	Disc	count Rate	1 %	6 Increase	
	(6.00%)		7.00%)	((8.00%)	
District's proportionate share of net pension liability	\$	439,101	\$	219,159	\$	31,500	

STATE OF CONNECTICUT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM

The District participates in the State of Connecticut Municipal Employees' Retirement System (MERS), which is a cost-sharing multiple employer public employee defined benefit plan established by the State of Connecticut and administered by the State Retirement Commission to provide benefits for the employees of participating municipalities. Full time District Fire and EMS personnel participate in the plan. MERS is considered to be a part of the State of Connecticut's financial reporting entity and is included in the State's financial statements as a pension trust fund. Information regarding the plan can be obtained on the State of Connecticut's website www.osc.ct.gov.

The plan has 4 sub plans: general employees with social security; general employees without social security; policemen and firemen with social security; and policemen and firemen without social security.

NOTE 11 - PENSION PLANS (Continued)

STATE OF CONNECTICUT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM (Continued)

Plan provisions are set by statute of the State of Connecticut and may be amended by legislative action. MERS provides retirement benefits, as well as death and disability benefits. General employees are eligible to retire at age 55 with 5 years of continuous service, or 15 years of active aggregate service, or 25 years of aggregate service. Police and firemen have a compulsory retirement age of 65.

For members not covered by social security, the benefit is 2% of average final compensation times years of service. For members covered by social security, the benefit is 1 ½ % of the average final compensation not in excess of the year's breakpoint plus 2% of the average final compensation in excess of the year's breakpoint, times years of service.

The maximum benefit is 100% of the average final compensation and the minimum benefit is \$1,000 annually. Both the minimum and maximum include workers' compensation and social security benefits.

If any member covered by social security retires before age 62, the member's benefit until the member reaches age 62 or social security disability award is received, is computed as if the member is not under social security.

Members are eligible for early retirement after 5 years of continuous or 15 years of active aggregate service. The benefit is calculated on the basis of average final compensation and service to date of termination. Deferred to normal retirement age, or an actuarially reduced allowance may begin at the time of separation.

Employees are eligible for service-related disability benefits from being permanently or totally disabled from engaging in the service of the municipality provided such disability has arisen out of and in the course of employment with the municipality. Disability due to hypertension or heart disease, in the case of firemen and policemen, is presumed to have been suffered in the line of duty. Disability benefits are calculated based on compensation and service to the date of the disability with a minimum benefit (including workers' compensation benefits) of 50% of compensation at the time of disability.

Employees are eligible for non-service-related disability benefits with 10 years of service and being permanently or totally disabled from engaging in gainful employment in the service of the municipality. Disability benefits are calculated based on compensation and service to the date of the disability.

The plan also offers a lump-sum return of contributions with interest or surviving spouse benefit depending on length of service.

NOTE 11 - PENSION PLANS (Continued)

STATE OF CONNECTICUT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM (Continued)

Participating municipalities make annual contributions consisting of a normal cost contribution, a contribution for the amortization of the net unfunded accrued liability, and a prior service amortization payment which covers the liabilities of the system not met by member contributions.

For employees not covered by social security, each person is required to contribute 5% of compensation. For employees covered by social security, each person is required to contribute 2 1/4 % of compensation up to the social security taxable wage base plus 5% of compensation, if any, in excess of such base.

The components associated with pension expense and deferred outflows and inflows of resources have been determined based on fiduciary net position as audited by the State of Connecticut Auditors of Public Accounts as part of the State of Connecticut Comprehensive Annual Financial Report as of and for the year ended June 30, 2017.

At June 30, 2018, the District reported a liability of \$358,243 for its proportionate share of the net pension liability. The net pension liability was measured at June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation of that date. The District's proportion of the net pension liability was based upon an allocation percentage calculated to six decimal places derived from the District's payroll as compared to the total. The District's allocation percentage for the reporting period ended June 30, 2018 was 0.895978%.

The total pension liability was calculated based on the following actuarial assumptions, applied to all periods included in the measurement:

3.25% Inflation

4.25-11.00%, including inflation Salary increases

Investment rate of return 8.00%, net of pension plan investment

expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for annuitants and nonannuitants (set forward one year for males and set back one year for females). The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2007 - June 30, 2012.

Future Cost-of-Living adjustments for members who retire on or after January 1, 2002 are 60% of the annual increase in the CPI up to 6%. The minimum annual COLA is 2.5% and the maximum is 6%.

NOTE 11 - PENSION PLANS (Continued)

STATE OF CONNECTICUT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM (Continued)

The following is the plan's target allocation and the long-term expected real rate of return:

		Long-Term Expected
	Target	Real Rate
Asset Class	Allocation	of Return
Large cap U.S. equities	16.0%	5.8%
Developed non-U.S. equities	14.0%	6.6%
Emerging markets (non-U.S.)	7.0%	8.3%
Core fixed income	8.0%	1.3%
Inflation linked bond fund	5.0%	1.0%
Emerging market bond	8.0%	3.7%
High yield bonds	14.0%	3.9%
Real estate	7.0%	5.1%
Private equity	10.0%	7.6%
Alternative investments	8.0%	4.1%
Liquidity fund	3.0%	0.4%
TOTAL	100.0%	-

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. For the year ended June 30, 2018, the District recognized pension expense of \$104,227. At June 30, 2018, the District reported deferred outflows of resources related to the pension from the following sources:

	I	Deferred
	Οι	ıtflows of
	R	esources
District contributions after the measurement date	\$	100,050
Change in proportional share		20,326
Differences between expected and actual experience		26,018
Net difference between projected and actual earnings on		
pension plan investments		24,944
Total	\$	171,338

NOTE 11 - PENSION PLANS (Continued)

STATE OF CONNECTICUT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM (Continued)

Amounts reported as deferred outflows of resources – contributions after the measurement date, will be recognized as a reduction of the net pension liability in the subsequent year. Amounts reported as deferred outflows related to the net difference between projected and actual earnings on plan investments, differences between expected and actual experience, and changes in proportionate share will be recognized in pension expense as follows:

June 30,	
2019	\$ 23,906
2020	39,397
2021	21,176
2022	(13,191)
2023	-
Thereafter	
Total	\$ 71,288

The following schedule presents the net pension liability, calculated using the discount rate of 8.00%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7.00%) or 1 percentage point higher (9.00%) than the current rate:

		(Current	
	 Decrease 7.00%)		eount Rate 8.00%)	 (9.00%)
District's proportionate share of net pension liability	\$ 623,944	\$	358,243	\$ 136,940

NOTE 12-RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has obtained coverage from commercial insurance companies and has effectively managed risk through various employee education and prevention programs. There have been no significant reductions in insurance coverage and settlements have not exceeded insurance coverage for each of the past three fiscal years. All risk management activities are accounted for in the general fund.

NOTE 13 - BUDGET MODIFICATIONS

ANNUAL BUDGET

The following additional appropriation was made to the 2017-2018 annual budget:

Budget Line	Amount
Other financing sources (uses):	
Transfers out	(36,549)

NOTE 14 - EXPENDITURES IN EXCESS OF APPROPRIATIONS

For the year ended June 30, 2018, the following line items were expended in excess of their budgeted appropriations by the indicated amounts:

Budget Line	Amount
Expenditures:	
Administrative and finance	
Administrative salaries and operations	46,897
Public safety	
Fire marshal	16,613
Other:	
Building and grounds	34,008
Volunteer training	12,528

NOTE 15 - WEST STREET COMPLEX - WATER DIVISION CONTRIBUTION

The West Street Complex project involved the demolition of the existing fire station at 1 West Street in Cromwell, Connecticut, and the subsequent construction at that location, of a facility to house district offices for the Water Division, Fire Department, and the Fire Marshal, as well as a three-bay fire station. The appropriation for this project was \$3,400,000 which was funded with the issuance of bonds and an appropriation of \$1,700,000 from the District's Water Division Enterprise Fund. In the Statement of Net Position, the West Street Complex is reported as a capital asset of the District's governmental activities. The Water Division Enterprise Fund's contribution is amortized over the life of the bonds and is currently reported as a deferred outflow of resources in the business-type activities and a corresponding deferred inflow of resources in the governmental activities. Amortization for the year ended June 30, 2018 was \$113,333 and the unamortized balance as of June 30, 2018 was \$566,670.

NOTE 16 - PRONOUNCEMENTS ISSUED, NOT YET EFFECTIVE

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2018 that have effective dates that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements:

GASB Statement 83, Certain Asset Retirement Obligations. This statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for Asset Retirement Obligations (ARO). The provisions of this statement are effective for reporting periods beginning after June 15, 2018 (the District's year ending June 30, 2019).

GASB Statement 84, Fiduciary Activities. The purpose of the statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes. The provisions of this statement are effective for reporting periods beginning after December 15, 2018 (the District's year ending June 30, 2020).

GASB Statement 87, Leases. The statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions of this statement are effective for reporting periods beginning after December 15, 2019 (the District's year ending June 30, 2021).

GASB Statement 88 – Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. This statement improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The provisions of this statement are effective for reporting periods beginning after June 15, 2018 (the District's year ending June 30, 2019).

GASB Statement 89 – Accounting for Interest Cost Incurred Before the End of a Construction Period. This statement enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and simplifies accounting for interest costs incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 (the District's year ending June 30, 2021).

GASB Statement 90 – Majority Equity Interests, an Amendment of GASB Statements No. 14 and 61. This statement improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018 (the District's year ending June 30, 2020).

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners of Cromwell Fire District Cromwell, Connecticut

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Cromwell Fire District (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 30, 2019.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
